PROFESSIONAL SUMMARY

Senior Laravel / Backend Developer with 8 years of professional experience building scalable web applications, REST APIs, admin dashboards, LMS platforms, e-commerce systems, and enterprise business tools. Strong background in Laravel backend architecture, MySQL database optimization, API integrations, Magento 2 custom modules, server monitoring, and production-ready business platforms. Proven impact includes reducing server response time by 25%, improving LMS platform efficiency by 30%, increasing user engagement by 40%, and reducing manual processing time by 50%.

CORE EXPERTISE

Laravel Backend Development	REST API Development	MySQL Optimization	Admin Dashboards
E-commerce & Magento 2	LMS Platforms	Mobile App Backend APIs	Redis & Queue Jobs
Role-Based Access Control	Performance Optimization	Server Monitoring	Security Patching

PROFESSIONAL EXPERIENCE

Senior PHP / Laravel Developer | We Code, Egypt

Jan 2026 - Present | Cairo, Egypt

- Build and maintain enterprise Laravel platforms, including multi-tenant business systems with RBAC and admin dashboards.
- Design and deliver REST APIs and backend services for web, mobile, and third-party integrations.
- Develop production/inventory and operations tools covering warehouses, stock flows, and reporting.
- Implement promo-campaign and analytics features with usage tracking and exportable reports.
- Improve performance through query optimization, caching, and cleaner service-layer architecture.

Senior PHP / Laravel Developer | Bayt Alebaa, Saudi Arabia

Nov 2023 – Dec 2025 | Cairo, Egypt

- Develop secure API integrations and custom Magento 2 modules supporting e-commerce operations.
- Build and improve internal dashboards, website features, and backend workflows for business users.
- Create APIs to connect frontend interfaces with backend business logic and operational data.
- Conduct server performance monitoring and security patching to reduce technical and operational risks.
- Reduced server response time by 25% through optimized queries and caching techniques.

Freelance PHP / Laravel Developer | Independent Clients

Oct 2021 - Present | Cairo, Egypt

- Delivered 15+ custom projects including admin panels, websites, mobile APIs, and business applications.
- Built backend systems using PHP, Laravel, MySQL, REST APIs, JavaScript, Bootstrap, jQuery, and AJAX.
- Supported projects across e-commerce, delivery, event management, veterinary services, and mobile platforms.
- Managed delivery from requirements and database design through development, deployment, and support.

PHP / Laravel Developer | Numo.sa, Saudi Arabia

Jun 2022 - Oct 2023 | Cairo, Egypt

- Served as lead developer for a Laravel-based Learning Management System.
- Built dashboard features, website modules, and backend workflows for education platform operations.
- Enhanced digital certificate generation using Imagick and improved LMS platform efficiency by 30% through database optimization.
- Worked with Laravel, Livewire, MySQL, Bootstrap, JavaScript, jQuery, AJAX, Font Awesome, and Spatie.

PHP / Laravel Developer | Glitch Fix

Nov 2020 - May 2022 | Dokki, Cairo

- Developed Spot, a Laravel-based chat and voice communication application.
- Integrated payment gateway functionality for virtual coins and in-app transactions.
- Built a control panel with audit trail functionality for tracking admin and user actions.
- Boosted user engagement by 40% through gamification features and improved interaction flows.

SELECTED PROJECTS

VisionIQ - Enterprise Business Management System

Architected and developed a Laravel-based multi-tenant system for organizations managing brands, branches, AI devices, and security operations. Implemented service layer architecture, repository pattern, policies, request validation, Redis caching, queue jobs, REST APIs, rate limiting, observers, notifications, automated reporting, and technical documentation.

Tech: PHP, Laravel, MySQL, Redis, RESTful API, Queue Jobs, Spatie, PHPStan

Tickets Helpdesk System - Enterprise Support Platform

Developed a production helpdesk and ticketing platform using Laravel and Filament v2, supporting multi-department operations across 31 stores and 18 areas. The platform handled 821+ closed tickets and included a 4-tier role system, prioritization, attachments, email notifications, activity logs, analytics, Excel export, reports, database documentation, and UML diagrams.

Tech: PHP, Laravel, Filament v2, MySQL, Spatie, Apex Charts, Excel Export, Larastan

Guide Me - Tourism Mobile App Backend

Built backend infrastructure, REST APIs, admin dashboard, and Firebase/Firestore real-time features for a tourism platform connecting travelers with professional guides. Supported dual mobile apps, trip booking, GPS tracking, payment processing, push notifications, multi-language support, role-based access, and production usage serving 54 users, 46 guides, and 195+ trips.

Tech: PHP, Laravel, MySQL, Firebase, Firestore, RESTful API, GPS Tracking, Spatie

Numo.sa - Learning Management System

Contributed to the development of a Laravel-based LMS supporting educational delivery, interactive learning flows, dashboard features, Livewire updates, responsive UI, certificates, and performance improvements.

Tech: PHP, Laravel, Livewire, MySQL, Bootstrap, JavaScript, jQuery, AJAX, Spatie

Spot - Chat & Voice Communication Application

Contributed to a Laravel-based communication app with chat, voice interaction, virtual coins, payment integration, gamification, admin control panel, and audit trail features.

Tech: PHP, Laravel, MySQL, Bootstrap, JavaScript, jQuery, AJAX, Laravel Collective

TECHNICAL SKILLS

Backend: PHP, Laravel, OOP, MVC, Design Patterns, REST APIs, Web Services, API Integrations

Frontend: Vue.js, Livewire, Bootstrap, JavaScript, jQuery, AJAX, HTML5, CSS3

Databases & Performance: MySQL, Database Design, Query Optimization, Redis Caching, Queue Jobs **Frameworks**

& Tools: Magento 2, Filament v2, Spatie, Firebase, Firestore, Postman, Git, PHPStan, Larastan **Operations:** Server Management, Security Patching, Monitoring, Documentation, Reporting, Team Collaboration

EDUCATION

Postgraduate Diploma in Computer Science - Cairo University | 2025 - Present

Bachelor of Arts in Sociology - Banha University | 2015 – 2019

CERTIFICATIONS

- PHP with Laravel - Udemy
- Artificial Intelligence and Future Applications - Edlail
